

## 2016 Knitting Goals!

Sure, everyone else is resolving to lose weight or work less in the new year. But you have greater goals, and they all revolve around your favorite hobby - knitting!

Here are my knitting goals:

- Learn a new technique
- Use some of my stash (just some)
- Buy more yarn (because I just used some of my stash)
- Meet interesting knitters Visit a wool mill
- Watch sheep shearing and/or herding
- Relax and enjoy some quality knitting time

I am going through my patterns to find projects to tackle in the new year. Here I am enjoying the unusually warm January day while working on a scarf. What's on your knitting needles this year?
